David,

Below is an entry for the NSR call notes.

Thanks.

Jason

**Saint-Gobain Containers, Inc. (Dolton, Cook County); ESA-no; synthetic minor:** Saint-Gobain has applied for a construction permit for modifications and installation of controls for its three furnaces at its glass container manufacturing plant in Dolton. Installation of controls is required under a Global Consent Decree. Saint-Gobain has selected a Catalyst Embedded Ceramic Filter System with Reagent Injection in lieu of a dry scrubber/ESP/SCR. This alternative control system was approved for use by USEPA. Emissions increases for the project will be less than significant so that netting is not required. The company is reviewing a preliminary draft permit.
